CITY OF CARNATION

4621 Tolt Avenue • P. O. Box 1238 • Carnation, WA 98014-1238
(425) 333-4192 phone • (425) 333-4336 fax • www.carnationwa.gov

APPLICATION FOR DRAINAGE PERMIT

APPROVAL OF THIS PERMIT IS SUBJECT TO THE FOLLOWING GENERAL CONDITIONS:

1. Payment of all fees, including all post-permit issuance fees incurred during inspection and post-construction administration performed by city staff and city consultant.
2. An onsite pre-construction meeting with Owner or Owner’s Agent, Drainage Contractor, and City Engineer is required prior to mobilization. Contact City to arrange pre-construction meeting. City may require that representatives of additional organizations be present.
3. A copy of the City-approved plans and permit conditions must be kept onsite at all times.
4. Site observation requests must be made at least 48 hours in advance to City representative. City representative and contact information will be provided at pre-construction meeting.
5. All work shall comply with City of Carnation standards and shall be acceptable to City Representative.
6. Direct discharge to groundwater of polluted stormwater is prohibited.
7. No work shall be buried until observed and accepted by City Representative. Buried work not observed and accepted by City Representative shall be exposed by Contractor for observation by City Representative, at Contractor’s sole cost.
8. Dial 811 and arrange for all buried utilities to be located before start of any excavation. Carefully pothole all buried utility crossings before trenching across buried utilities. Report any damage to the utility purveyor immediately and notify the City representative.
9. Infiltration drainage systems shall be protected from deleterious materials, such as sediment and turbid stormwater runoff, during construction and until site soils have been permanently stabilized.
10. All work within the public rights-of-way shall require a separate Carnation Right-of-Way Construction Permit and payment of associated additional fees.
11. In accordance with CMC 15.64.230.D, a Drainage Covenant, in a format acceptable to the City, shall be submitted by the property owner, to King County Recorder’s Office for recording, upon completion of construction. A copy of the recorded covenant shall be provided to the City.
12. Property owner shall, for the life of the drainage system, conduct annual inspections of drainage system condition and performance and shall perform preventive and corrective maintenance as required to maintain a fully functional drainage system.
13. Failure to meet any of the above conditions and/or any additional special permit conditions that may be attached to the permit, or that may be redlined on the approved stormwater site plans, could result in a Stop Work Order or legal action.

FEES:

Please refer to the latest City of Carnation Fee Resolution (available on City website) for fee information.

The City Engineer performs permit review and construction observation for stormwater drainage installation and is a consultant to the City.
